

BALL VALVES - HIGH PRESSURE BALL VALVES

High Pressure Ball Valves are designed for high pressure applications like hydraulic, steam, utilities, etc. Made out of forged carbon steel or stainless steel (304,316 Grades), these mini ball valves are available in threaded and socket weld ends. Usually are manually operated and can serve pressures upto 500 to 600 bars.

Upto 500 Bar			
Size (P)		Pressure	Flow
IN.	MM		
1/4" BSP	7	500 BAR	30 LPM
3/8" BSP	10	500 BAR	50 LPM
1/2" BSP	15	500 BAR	70 LPM
3/4" BSP	20	350 BAR	120 LPM
1" BSP	25	350 BAR	180 LPM
1 1/4" BSP	32	315 BAR	220 LPM
1 1/2" BSP	40	315 BAR	300 LPM
2" BSP	50	315 BAR	500 LPM

(Code - ATF)

Upto 500 Bar					
Size (P)		L	H	F	Weight (kg)
